Non-business majors who declare a business minor must graduate under a catalog that includes that minor and must meet any additional requirements listed in that catalog.

Some courses for non-business majors require registration assistance through the College of Business Undergraduate Advising Center. These courses will have a "D" note beside the course in the Schedule of Classes. In order to enroll in business courses that are restricted, students must have formally declared a minor through the College of Business Undergraduate Advising Center and must have completed any required prerequisites.

Additional minor requirements:

Some courses required in earlier catalogs may be phased out and substitutions will be considered through the College of Business Undergraduate Advising Center. In order to graduate with a minor, all requirements must be met by graduation and students must achieve a 2.00 (on a 4.00 scale) grade point average on all work used to satisfy the minor. Students may not formally minor in more than two fields.
