2010-2012
College of Business Undergraduate Advising Center
Minor in Infrastructure Assurance and Security
Open to any UTSA major

The minor in Infrastructure Assurance and Security is open to all majors in the University. A student majoring in Information Systems will be required to take 18 hours of coursework. Other majors may be required to take additional hours depending on their academic background.

- OR
- Intro to Project Mgt | MOT 4143 | (3)

* A minimum of 6 hours upper-division hours must be completed at UTSA.

Total: 18

Non-business majors who declare a business minor must graduate under a catalog that includes that minor and must meet any additional requirements listed in that catalog.

Some courses for non-business majors require registration assistance through the College of Business Undergraduate Advising Center. These courses will have a "D" note beside the course in the Schedule of Classes. In order to enroll in business courses that are restricted, students must have formally declared a minor through the College of Business Undergraduate Advising Center and must have completed any required prerequisites.

Additional minor requirements:

Some courses required in earlier catalogs may be phased out and substitutions will be considered through the College of Business Undergraduate Advising Center. In order to graduate with a minor, all requirements must be met by graduation and students must achieve a 2.00 (on a 4.00 scale) grade point average on all work used to satisfy the minor. Students may not formally minor in more than two fields.
