Project Management Certification Preparation
(for PMP and CAPM)

This workshop will prepare you for both the Project Management Institute’s (PMI) Project Management Professional (PMP) certification examination, and the Certified Associate in Project Management (CAPM) certification examination. Building on the Project Management 101 course, this intensive exam preparation workshop uses the framework outlined by the PMI Project Management Body of Knowledge (PMBOK). Certified instructors will share test-taking tips and strategies, as well as review materials to assist with passing the PMP/CAPM exam.

Course Topics

- PMBOK Ten Knowledge Areas
  - Integration
  - Scope Management
  - Time Management
  - Cost Management
  - Quality Management
  - Human Resource Management
  - Communication Management
  - Risk Management
  - Procurement Management
  - Stakeholder Management
- Five Project Management Process Groups: initiating, planning, executing, monitoring and control, and closing

Learning Objectives

- Prepare for the Project Management Institute’s (PMI) Project Management Professional (PMP) certification examination
- Prepare for Certified Associate in Project Management (CAPM) certification examination

If you are applying to take the CAPM certification exam, this course satisfies the CAPM prerequisite of 23 hours of project management education.

Recommended Pre-requisite Course

- Project Management 101

Aaron DeWispelare, Ph.D., P.E., PMP, ACP
With a career that spans over 35 years, DeWisperlare has extensive experience in both the public and private sectors. His 20-year career in the U.S. Air Force (USAF) included experience in the fields of engineering analysis and design, computer technology, project and resource management and academia. In the private sector at Southwest Research Institute (SwRI), DeWispelare held positions ranging from principal investigator to director.
