Sessions
DEVELOPING AND EMPOWERING DE&I TEAMS
This workshop starts with the basic concepts, terminology and models of DE&I. Explore where bias may occur, and evaluate best practices that encourage open and objective processes through the selection, training and development of employees. As team members or leaders, you will have an opportunity to discuss your role in the context of DE&I and how to empower others as allies.

THE STRATEGIC ADVANTAGES OF STRONG DE&I CULTURES
During this workshop, you will explore best practices (and common pitfalls) of strategies used to develop and foster more diverse, equitable and inclusive organizational cultures. Using research to identify key drivers of DE&I cultures, you will consider how to successfully implement strategies, and evaluate ways to measure the impact of DE&I.

LEAD AS AN ALLY FOR DIVERSITY, EQUITY AND INCLUSION
Through the lens of DE&I, you have the opportunity in a safe and secure environment to engage in open and honest discussions about bias. By challenging our preconceived notions and unconscious biases, you will gain a deeper awareness of presumptions that can influence everyday behavior.
