

HONGYI ZHU

hongyi.zhu@utsa.edu, (210)-458-8030

Department of Information Systems and Cyber Security (ISCS)

The University of Texas at San Antonio (UTSA)

1 UTSA Circle, San Antonio, TX 78249

EDUCATION & CERTIFICATIONS

- The University of Arizona
Doctor of Philosophy (Ph.D.) 2014 – 2019
Advisor: Dr. Hsinchun Chen
Major: Management Information Systems
Minor: Cognitive Science
- The University of Arizona
Certificate in College Teaching 2016 – 2017
- Tsinghua University
Bachelor of Management (BBM) 2010 – 2014
Major: Information Management and Information Systems
Minor: Computer Science

WORK EXPERIENCE

- **Assistant Professor**, Department of ISCS, UTSA 01/2020 – present
- **Instructor**, Department of ISCS, UTSA 08/2019 – 12/2019
- **Research Associate**, Artificial Intelligence (AI) Lab, University of Arizona 08/2014 – 05/2019
- **Research Fellow**, International Smart Health Center (ISHC), Tsinghua University 07/2013 – 07/2014
- **Summer Intern**, Pactera Technology International Ltd., Beijing, China Summer 2013

RESEARCH INTERESTS

1. **Domain:** Mobile Health Analytics – mobile sensor data mining and pattern recognition; Business Analytics – technology-related paper and patent analysis
2. **Methods:** Machine learning (deep learning), data mining, web mining, text mining, and visualization

JOURNAL PUBLICATIONS

4. Yu, S., ***Zhu, H.**, Jiang, S., & Chen, H. (2014). Emoticon Analysis for Chinese Health and Fitness Topics. In *Smart Health* (pp. 1-12). Springer.

TALKS AND PRESENTATIONS

1. A Deep Learning Method to Recognize Interactions Between Wearable and Environment Sensors (Poster Session). University of Arizona BIO5 Workshop on Biomedical Wearables. Tucson, Arizona,

United States, 2016.

2. Global Nanotechnology Development: Nano 1 (2000-2010) vs. Nano 2 (2011-2014) (Poster Session). 2015 NSF Nanoscale Science and Engineering Grantees Meeting. Arlington, Virginia, United States, 2015.
3. Emoticon Analysis for Chinese Social Media and E-commerce: The AZEmo System. Tsinghua-University of Arizona Ecommerce Workshop. Tucson, Arizona, United States, 2015.

GRANT WRITING EXPERIENCE

1. **(Co-PI)** SCH: INT: Deep Learning-based Mobile Analytics and Health Technology Acceptance Model for Chronic Care: A Case for Parkinson’s Disease Risk Assessment. **Funding Source:** National Science Foundation. **Year:** 2019. **Funding Amount:** \$1,170,000. **Status:** Pending.
2. SCH: INT: Deep Learning-based Mobile Analytics and Health Technology Acceptance Model for Chronic Care: A Case for Parkinson’s Disease Risk Assessment. **Funding Source:** National Science Foundation. **Year:** 2018. **Funding Amount:** \$1,120,000. **Status:** Declined. **Role:** Assisting Grant Writer.
3. EAGER: A Longitudinal Study of Knowledge Diffusion and Societal Impact of Nanomanufacturing Research & Development: Harnessing Data for Science and Engineering. **Funding Source:** National Science Foundation. **Year:** 2018. **Funding Amount:** \$160,000. **Status:** Awarded. **Role:** Primary Grant Writer.
4. STTR Phase II: Advanced Analytics for Health Progression Monitoring and Fall Detection in a Novel Home Health Monitoring System. **Funding Source:** National Science Foundation. **Year:** 2017. **Funding Amount:** \$750,000. **Status:** Declined. **Role:** Assisting Grant Writer.
5. STTR Phase I: Advanced Analytics for Health Progression Monitoring and Fall Detection in a Novel Home Health Monitoring System. **Funding Source:** National Science Foundation. **Year:** 2016. **Funding Amount:** \$225,000. **Status:** Awarded. **Role:** Assisting Grant Writer.

| <ul style="list-style-type: none">• 4.41 / 5.00 (58 students) | |
| University of Arizona – MIS 373 “Basics Operations Management” | Summer 2018 |
| <ul style="list-style-type: none">• 4.54 / 5.00 (29 students) | |
| University of Arizona – MIS 373 “Basics Operations Management” | Summer 2017 |
| <ul style="list-style-type: none">• Evening undergraduate program• 2.55 / 5.00 (23 students) | |

Teaching Assistant

- | | |
|---|--------------------|
| University of Arizona – MIS 611D “Topics in Data and Web Mining” | Spring 2019 |
| <ul style="list-style-type: none">• Instructor: Dr. Hsinchun Chen• Assist class material preparation (Recurrent Neural Networks, Information Visualization)• Lecture in lab sessions (Tableau); Q&A sessions (Weka) | |

University of Arizona – MIS 464 “Data Analytics”

Spring 2019

- Instructor: Dr. Hsinchun Chen
- Assist class material preparation (Recurrent Neural Networks, Information Visualization)
- Lecture in lab sessions (Tableau); Q&A sessions (Weka)

Tsinghua University – “Computer Programming Language”

Spring 2013

- Instructor: Dr. Zhong Wen
- In charge of office hours, grading, and lab sessions

DISSERTATION

Title: Developing Smart and Unobtrusive Mobile Home Care: A Deep Learning Approach

Committee: Dr. Hsinchun Chen (Chair), Dr. Jay F. Nunamaker Jr. (Member), Dr. Sue Brown (Member), and Dr. Wei Chen (Member)

Dissertation Summary: Chronic conditions, frailty, dementia, and other diseases or symptoms significantly affect independent-living senior citizens’ health, safety, and quality of life. The longevity of the aging population has resulted in a rocketing need for home care services. However, the insufficient labor supply of the home care market requests the involvement of modern information technology such as sensors, Internet of Things, and artificial intelligence. Healthcare providers and information systems researchers have sought to develop mobile home care approaches improve the home care effectiveness and efficiency. Given the societal importance of mobile home care, my dissertation aims to address four questions in the design science paradigm with Deep Learning frameworks:

- How to recognize residents’ daily activities using smart home sensors?
- How can we use a minimum, unobtrusive sensor setting to extract the granular activity semantics?
- How can we recognize different residents within an environment to provide personalized care?
- How can we make use of mobile data to help identify and intervene early physical and cognitive impairments?

PROFESSIONAL SERVICES

Journal

1. Ad-hoc Reviewer:

- Computers and Electrical Engineering, 2018.
- International Journal of Distributed Sensor Networks, 2018, 2019.
- Information Systems Frontiers, 2019.

- ACM Transactions on Management Information Systems (TMIS)
 - Special Issue on Analytics for Cybersecurity and Privacy, 2019.
- Computers & Security, 2019, 2020.
- Information Processing and Management, 2019.
- IEEE Transactions on Engineering Management (TEM), 2019.

Conference

1. **Session Chair:** INFORMS Annual Meeting, “Healthcare Analytics: Deep Learning Approaches for Health Data,” 2018.
2. **Program Committee Member:**

- International Conference on Smart Health (ICSH), 2019.
3. **Reviewer:**
 - Workshop on Information Technologies and Systems (WITS), 2019.
 - ACM User Modeling, Adaptation, and Personalization, 2019.
 - International Conference on Information Systems (ICIS), 2019.
 - INFORMS Workshop on Data Science, 2018.
 - International Conference on Smart Health (ICSH), 2019, 2018.
 4. **Volunteer:** IEEE Intelligence and Security Informatics (ISI), 2016.

AWARDS

1. Paul S. and Shirley Goodman Award, Department of Management Information Systems, University of Arizona. 2018.
2. Graduate & Professional Student Council Travel Grant, University of Arizona. 2018.
3. Doctoral Consortium, American Conference on Information Systems (AMCIS). 2018.
4. Hongqian Scholarship, School of Economics and Management, Tsinghua University. 2013.

PROFESSIONAL AFFILIATIONS

1. Association of Information Systems (AIS), Member
2. Association of Computing Machinery (ACM), Member
3. Institute of Electrical and Electronics Engineers (IEEE), Member

RELEVANT SKILLS

1. **Programming Languages:** Python, Java, Android, SQL, PL/SQL, C, C++, R, Perl
2. **Databases:** MySQL, SQL Server, PostgreSQL, Oracle, Access
3. **Middleware & Mobile App Development:** Mobile Home Monitoring & Data Collection System (Cloud database and service, Android gateway, and Bluetooth-enabled mobile sensors)
4. **Web Development:** HTML, CSS, Javascript, jQuery
5. **Data Mining Tools:** Weka, RapidMiner, SPSS Modeler
6. **Visualization Tools:** Gephi, Tableau, VTK, OpenFramework, Processing, D3.js, Sci2
7. **Cybersecurity Tools:** Shodan, NMap
8. **Operating Systems:** Windows, Linux
9. **Big Data Tools:** Hadoop, Spark
