

Project Management Certification Preparation

(for PMP® and CAPM®)

 UTSA Main Campus, San Antonio

 32 hours

Instructor

Prepare for both the Project Management Institute's (PMI) Project Management Professional (PMP®) and the Certified Associate in Project Management (CAPM®) certification exams.

Using the framework outlined by the PMI Project Management Body of Knowledge (PMBOK®), PMI-certified instructors provide core project management knowledge, test-taking tips and strategies, review materials and a practice exam with readiness feedback on preparedness for the PMP®/CAPM® exam.

Visit pmi.org/certifications/types/project-management-pmp to review the experience and education requirements for the PMP® exam.

If you are applying to take the **CAPM® certification exam**, this course satisfies the prerequisite of 23 hours of project management education.

Aaron DeWispelare, PhD, P.E., PMP, ACP

With a career that spans over 35 years, DeWispelare has extensive experience in both the public and private sectors. His 20-year career in the U.S. Air Force (USAF) included experience in the fields of engineering analysis and design, computer technology, project and resource management and academia. In the private sector at Southwest Research Institute (SwRI), DeWispelare held positions ranging from principal investigator to director.

DeWispelare has taught engineering and project management courses over the last 30 years at the graduate and undergraduate level. He also regularly presents short courses and training sessions for industry.
