The Bachelor of Business Administration (B.B.A.) in Finance provides a theoretical foundation in finance, financial accounting and statistical analysis, so that you can apply this knowledge to solve real-world financial challenges that face investors, financial institutions and corporations.

The college also offers a B.B.A. degree in Real Estate Finance and Development for students interested in creating or managing businesses associated with real estate.

**PROGRAM OVERVIEW**

A major in finance focuses on the creation, management and study of money and investments and the flow of money between businesses, governments and individuals. Specialized tracks, which may be indicated on your official transcript, are available in

- Corporate Finance/Investment Banking
- Financial Institutions
- Investment Management

**Common Body of Knowledge**

To prepare you for future career success, all finance students in the college complete Common Body of Knowledge courses. These courses will provide you with a broad business foundation in accounting, business communications, economics, finance, information systems, marketing and statistics.

**Related Business Competencies**

As a finance major, you also have the option of developing a business competency through your electives to enhance your marketable skills for future employment. Related competencies for finance majors include analytics, modeling and risk management.

**Coursework**

- Accounting for Finance Majors
- Computer Modeling of Financial Applications
- Corporate Finance
- Investment Portfolio Management
- Money and Banking
- Principles of Investment
- Security Analysis
